

SPECIAL DEALS FOR DIVERS

For the 2016 season, we offer scuba diving packages for those who are already certified, advanced or beginners, or may want to have this “baptism by sea” underwater breakthrough experience in Ustica. Professional, certified instructors from diving centers with long standing experience will guide you above and below Ustica’s waters. Ustica’s particular conditions allow for dives also in the low season from April to November. Ustica’s underwater world, internationally renowned, may not need further presentation from us.

To view some of the many scuba diving itineraries available, visit the Ustica Marine Protected Area website: www.ampustica.it
